

RECEIVED AIR ENFORCEMENT BRANCH U.S. EPA, REG. 5

May 4, 1999

**USEPA** Air and Radiation Division Region 5 77 West Jackson Blvd. Chicago, IL. 60604-3590

Dear Sirs,

Attached is a copy of the Compliance Certification sent along with our Annual Emissions Report to the Illinois EPA as directed in our Draft Title V Permit.

Sincerely,

Ronald Reinstein Compliance Manager

RR/rr

CC: James Valukas, Chris Bergman

ed fleuste

## 14.0 COMPLIANCE CERTIFICATION

A requirement of both the federal and state Title V permit programs is that a responsible official sign a statement attesting to the truth, accuracy, and completeness of the Title V permit application. The compilation of the large amount of information and data required to prepare this CAAPP application document involved numerous facility and corporate personnel as well as outside contractors and legal counsel. Throughout the application process, standard operating procedures were incorporated which involved developing the most accurate and currently available data, review of that data by competent individuals with the appropriate experience and knowledge, and preparation of accurate, factual information for presentation in the application. The application was prepared by the Facility's environmental management with the assistance of legal counsel.

Accurate has designated James L. Valukas as the responsible official charged with signing the application certification. Mr. Valukas has reviewed this document and the contents with the individuals responsible for preparing the submittal. Based on his understanding of the regulatory requirements, the overall Facility's operations, and the information presented to him, he has signed the CAAPP certification block. By signing this certification block, he is confirming the following:

Based on information and belief formed after reasonable inquiry, the source identified in this application complies, and will continue to comply, with all applicable federally-enforceable applicable requirement(s).

Based on information and belief formed after reasonable inquiry, the source identified in this application will comply with applicable federally-enforceable applicable requirement(s) that will become effective during the permit term.

Based on information and belief formed after reasonable inquiry, information and statements in the amended application package, including all accompanying reports and required certifications, are true, accurate and complete.

By signing the CAAPP application, James L. Valukas declares under penalty of perjury that the statements located above the signature portion of the CAAPP certification form of this application are correct and true.
